About me

Prolific, MERN full-stack web developer with a passion for beating former "best-yets," Efficient and flexible in both F/E and B/E technologies. I developed app integration with REST / GraphQL APIs for payment processors, data fetching, and other services. Managed, optimized, and updated Mongo DB and firebase databases as necessary. Recently developed a QR attendance taker, which takes your attendances right away just with a QR scan.

Education

MP & EV English medium School (May 2017- May 2019)
Secured 91.6% in class 12th CBSE board and 97.1 percentile in JEE mains.

IIITDMJ Jabalpur (June 2019-present)
Currently pursuing B-tech in Electronics and Communication Engineering at IIITDM Jabalpur with CPI 8.1

Experience

Appointment JWT Auth API (Dec 2020)
An appointment backend Node Auth API and the goal of this project is recruiters of a company can schedule appointments & interviewees can fix appointments at their leisure. This API works with JWT and email verification. Data gets stored on Mongo DB by encrypting it with Bcrypt for hashing and hosted on Heroku.

React OMDb Movie Search (Feb 2021)
A Movie search react app made with OMDb API is a RESTFUL web service to obtain movie information and a set of other details including genre, plot, awards, poster, IMDb value and a unique ID. Made with react FC, hooks, react-router, react-bootstrap, OMDb API, react-spring, and hosted on Netlify.

React Firebase Drive (June 2021)
Google drive clone where users can securely log in and upload their pictures. Users can log in with their Google, Facebook, Github, or with custom email & password. Made with react FC, hooks, react-router, react-bootstrap, firebase firestore, auth, storage, and hosting.

QR Attendance System (August 2021)
QR system that takes your attendance right away with just a QR scan. Users need to log in with their accounts and scan the QR to mark their attendance. The QR will get expired within a minute to avoid infringement. Made with react FC, hooks, react-bootstrap, firebase firestore, auth, and hosting.

Skills & Tools
